CANADIAN
OIL HEAT
ASSOCIATION

Introduction

This 1-day course will provide the necessary skills required to conduct an inspection of the fuel oil system.

With **FOSIL** certification through COHA you will be able to identify infractions related to a fuel oil system including the supply tank, supply piping or tubing, the appliance and the venting system.

The information presented in this program will permit the participants to perform basic inspection safely, efficiently and in compliance with provincial regulations as well as the CSA B-139.

Topics covered include:

- The Technical Standards and Safety Authority (TSSA)
- The Canadian Oil Heat Association
- CGI
- Legal Requirements
- Storage Tanks/Piping Systems
- Appliance Information
- Appliance Venting/Air Supply
- Filter Removal/Replacement
- Appliance Activation
- Basic Inspection

Instructor:

Marc Raymond has been involved in loss control inspections since 1990 and has taught hundreds of professionals. He serves on two Standards Committees for the CSA B-365 (Solid Fuel Burning Appliances) and B-139 (Fuel Storage Tanks). Marc is a member of the Insurance Institute of Canada, the Canadian Professional Sales Association, and is a former registered insurance broker.
