

What Implemented Technologies Mean the Most For MGAs?

- Jeff McCann, CEO, Digital MGA Marketplace Ltd.**
- Märtin Kosk, Commercial Manager, Insly**

Emerging Technologies: Current Deployment

Deployed Technologies

1. Analytics
2. AI (Predictive Analytics and Beyond)
3. APIs and Micro-Services
4. Big Data (all data)
5. Internet
6. Machine Learning
7. Natural Language Processing Systems (NLPS)
8. Sensors (IoT)
9. Voice

Implemented Technologies

- **Internet**
- **Analytics**
- **APIs and Micro-Services**
- **AI (Predictive Analytics and Beyond)**
- **Big Data**
- **Machine Learning**
- **Natural Language Processing Systems (NLPS)**
- **Sensors (IoT)**
- **Voice**

Internet

- **Website**
- **Email**
- **Data transport**
- **Social**

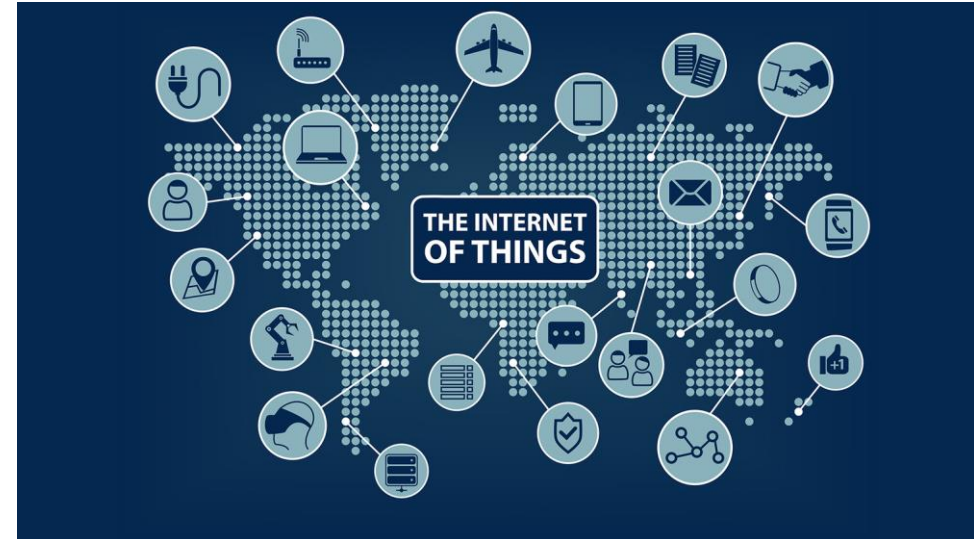

**What value has the
Internet brought the
MGA Community?**

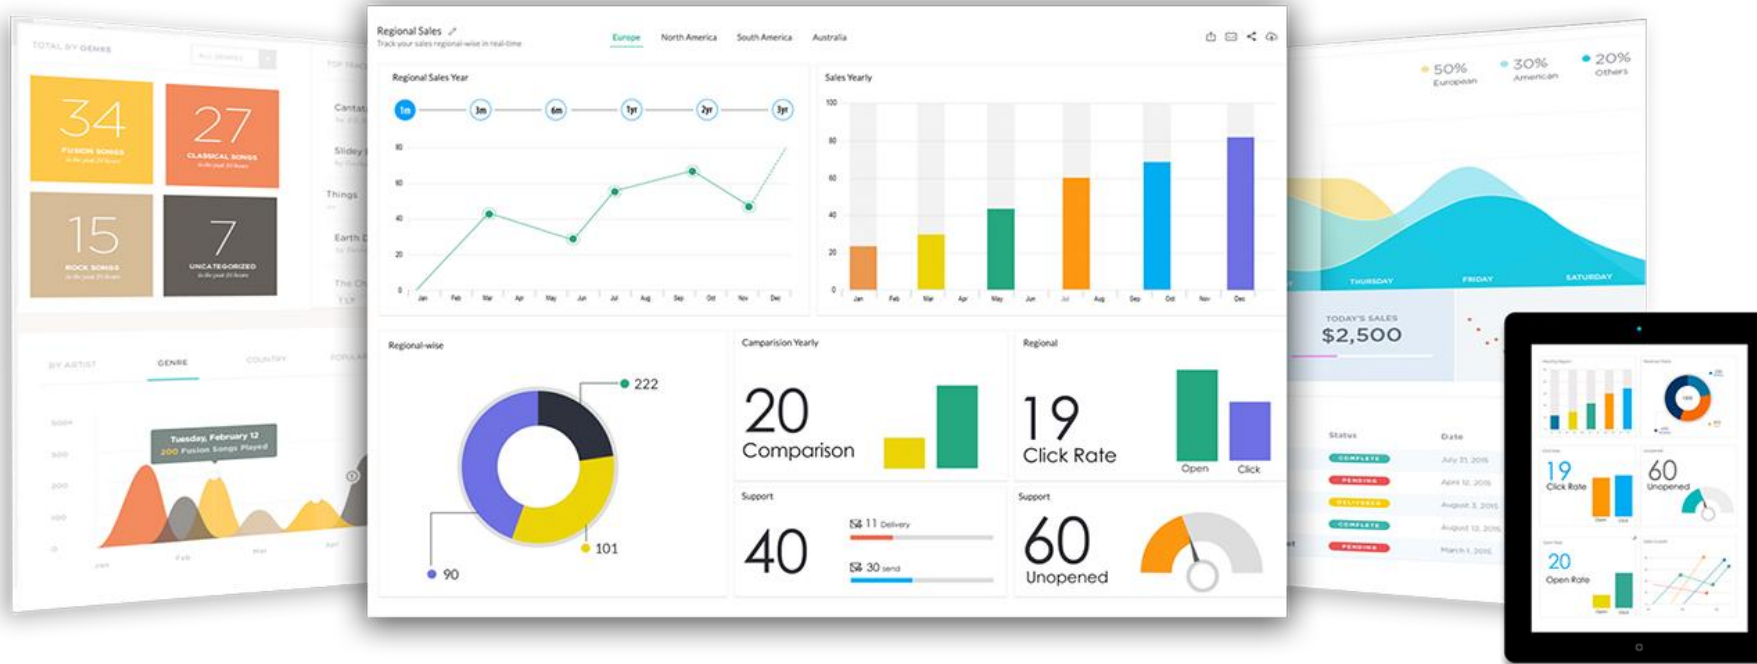

**What “new” or
“increased” value do
you see in the next two
years?**

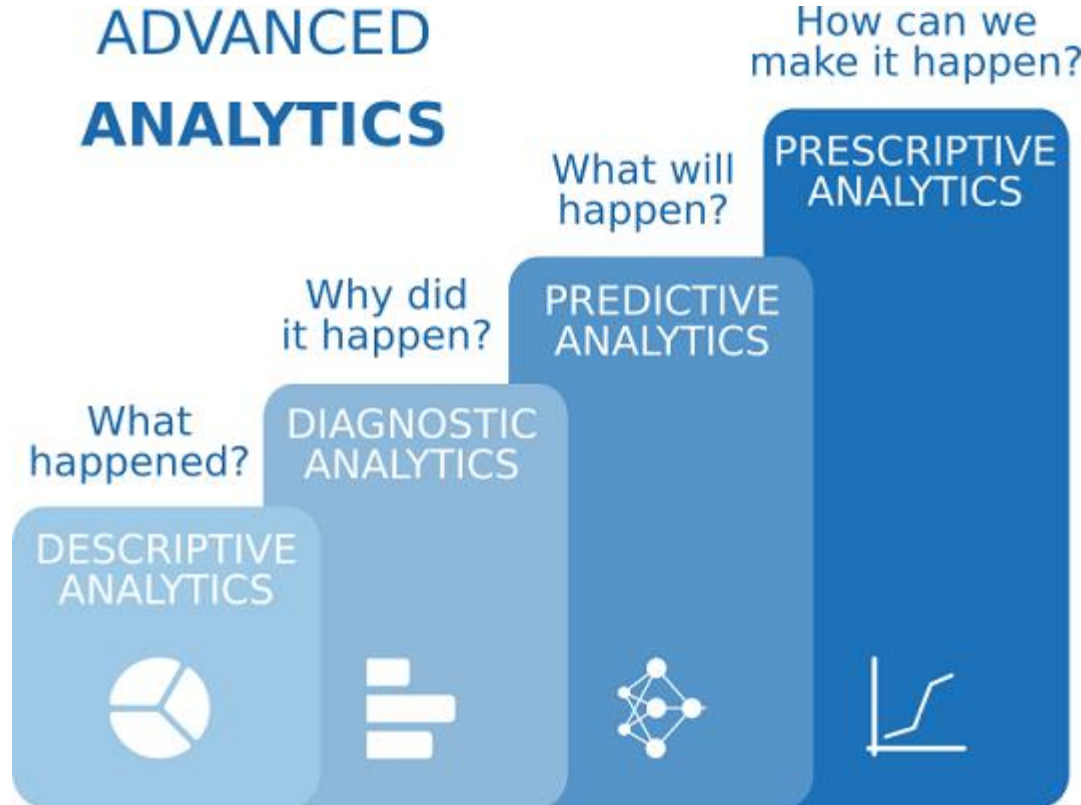

Implemented Technologies

- Internet
- **Analytics**
- APIs and Micro-Services
- AI (Predictive Analytics and Beyond)
- Big Data
- Machine Learning
- Natural Language Processing Systems (NLPS)
- Sensors (IoT)
- Voice

What value has analytics brought the MGA Community? What has changed?

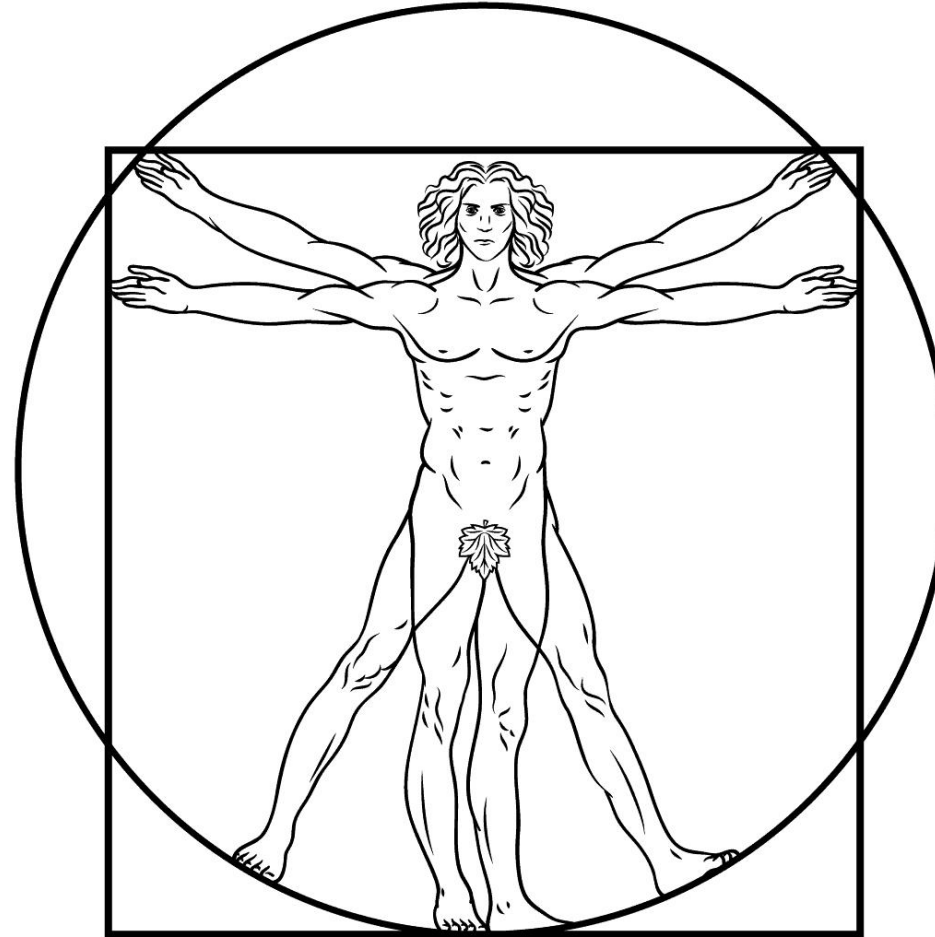

**Might advanced analytics bring change to MGAs?
How so?**

Technology: The Heart of Your Enterprise

- **Internet**
- **Analytics**
